A.S Mathematics

PROJECTS

Codify

Jun 1, 2020 2020

- Used a MERN Stack with MongoDB and Mongoose (ODM) for our database.
- Implemented the frontend in React and Materialize CSS while using Node.js.
- Designed overall component structure of the application.
- Implemented REST API calls and updated the state throughout the application using React hooks, such as useEffect and setState.

WeTrivia

Apr 1, 2020 2020

- Used MySQL to build the database to store the high scores.
- Served the app on Express framework with Node.js.
- Implemented the design using Bulma and incorporated Socket.io for mobile responsive functionality.
- Created and implemented the AJAX call that retrieved data from the trivia API.
- Constructed the logic for the trivia game, parsing and randomizing the data to promote in-game interactivity.

Local Eats

Feb 1, 2020 2020

- Serverless responsive app created using Javascript, CSS, and HTML.
- Implemented the AJAX call that retrieve data from the Zomato API.
- Designed the logic used to allow the user to filter their searches.
- Assisted in adding responsiveness to the app using Skeleton.

EMPLOYMENT

Emptech

Torrance, CA

Unemployment Tax Manager

Oct 1, 2016 2016 to Current

- Manage daily operations of a team that delivers unemployment tax rate information to over 50 clients with multiple accounts.
- Collaborated on migrating large amounts of historic data through Excel which reduced production time by 75%.
- Identified key calculation variables based on state requirements that were vital for the implementation of the platform.
- Evaluate the platform's accuracy and consistency in calculating tax rates.

Vons

Redondo Beach, CA

Bookkeeper

Sep 1, 2009 2009 to Jul 1, 2018 2018

- Managed and created detailed documentation of daily financial transactions.
- Maintained accurate store-wide financial records and produced daily financial reports.
- Performed bank and account reconciliations by updating ledgers on a daily basis using VeriBalance and Excel.
- Handled 50+ customer interactions per day, giving detailed, personalized, friendly and polite service.
